Hakkımızda ——— About Us

M4KEY OTOMOTİV İTHALAT İHRACAT SAN. Ve TİC. LTD. STİ. olarak, Tam kapasite ile çalışan bir işletmeyiz. Dünyada sektörümüzde var olan en son teknolojilere sahibiz.

Gelişen Teknoloji ve Bilgi Birikimi desteğinde, müşteri beklentilerini karşılamak ve alternatif ürünler sunmak 2003 yılından beri işimiz olmuştur.

Elektronik component hammaddedeki gelişmeler ve üretim hatlarımızdaki yüksek teknoloji ile müşteri beklentilerini karşılamakta, performans iyileştirici ve maliyet azaltıcı avantajlar sunmaktayız.

Özel ürünlerin tedarikçisi olmak, katma değerli ve faydalı ürünler üretmek, son teknolojiyi kullanmak tüm M4KEY ve GOLCAR çalışanlarının gelişim ve katkısı ile mümkün olabilmektedir.

M4KEY ve GOLDCAR çalışanlarıyla Sosyal Sorumluluk ve Çevre Duyarlılığı bilinci ile hareket ederek geleceğe güvenle bakmaktadır.

Firmamız ana ürün gruplarından; Direksiyon Kilidi Simulatoru , Can filter , ignittion simulator , immobilizer simulator, ecu simulatoru , otomotiv anahtarları , masaüstü test cihazları , obd , Acil Başlatma Obd Test Ekipmanları, Gateway, gibi ürünlerin üretimini yapmaktadır.

Firmamız tüm ürün ve hizmet süreçlerinde Toplam Kalite Yaklaşımı prensibini başarıyla benimsemiştir.

M4KEY AUTOMOTIVE IMPORT EXPORT IND. and TİC. LTD. STI. We are a business operating at full capacity.

We have the latest technologies available in our industry in the world.

With the support of Developing Technology and Knowledge, it has been our business since 2003 to meet customer expectations and offer alternative products.
With the developments in electronic component raw materials and the high technology in our production lines, we meet customer expectations and offer performance-improving and cost-reducing advantages.

It is carefully designed with the awareness of the value that the packaging adds to the product.
Being a supplier of special products, producing value-added and useful products and using the latest technology is possible with the development and contribution of all M4KEY and GOLDCAR employees.

M4KEY and GOLDCAR looks to the future with confidence by acting with the awareness of Social Responsibility and Environmental Awareness with its 20 employees.

Our company is one of the main product groups; It produces products such as Steering Lock Simulator, Can filter, ignittion simulator, immobilizer simulator, ecu simulator, automotive keys, desktop test equipment, obd, Emergency Start obd, gateway.
Our company has successfully adopted the Total Quality Approach principle in all product and service processes.

Vizyon&Misyon —————— Vision & Mission

To be a global company that constantly develops itself with the value it gives to its employees and customers, and produces new, profitable and high quality products.

Ensuring customer satisfaction and loyalty
Developing and engaging our employees
Being a supplier of special products
Producing new and profitable products
Creating social and environmental benefits

In the Automotive Sector; To be the most preferred leading company with its product quality, customer satisfaction and service speed. To be a company that creates value for them and our employees as the first choice of our customers with our high product quality, wide product range, after-sales services and high business ethics.

Çalışanlarına ve müşterilerine verdiği değerle kendini sürekli geliştiren, yeni, kârlı ve kaliteli ürünler üreten bir dünya firması olmak.

Müşteri memnuniyetini ve bağlılığını sağlamak
Çalışanlarımızı geliştirmek ve katılımlarını sağlamak
Özel ürünlerin tedarikçisi olmak
Yeni ve karlı ürünler üretmek
Sosyal ve çevresel faydalar yaratmak

Otomotiv Sektöründe ; ürün kalitesi, müşteri memnuniyeti ve servis hızı ile en çok tercih edilen lider şirket olmaktır.

Yüksek ürün kalitemiz, geniş ürün yelpazemiz, satış sonrası hizmetlerimiz ve yüksek iş ahlakımız ile müşterilerimizin ilk tercihi olarak, onlar ve çalışanlarımız için değer yaratan bir şirket olmaktır.

Ar-ge —— Research and Development

Otomotiv teknolojileri ve teknikleri alanındaki yenilikler takip edilir ve uygulanması sağlanır. Ar-Ge, M4KEY'ın devam eden gelişimine en üst düzeyde katkı sağlamak için yenilikçi çözümler üretir.

Maksimum seviyede üretim, etkili bilgi akışı ve işbirliği sağlayabilmek için iç: ve dış iş ortaklarıyla yakın ilişkiler ve iletişim kurar. Hızlı ve zamanında uygulamalar yapabilmek için etkili süreçler oluşturur.
Ar-Ge'de sürdürülebilir ürünler geliştirme hedefi, çevreye karşı olan sorumlulukla paralel olarak yürütülmektedir.

Innovations in automotive technologies and techniques are followed and implemented. R&D produces innovative solutions to contribute to the continued development of M4KEY at the highest level.

It establishes close relationships and communication with internal and external business partners in order to ensure maximum production, effective information flow and cooperation. It creates effective processes to make fast and timely applications.

The aim of developing sustainable products in R&D is carried out in parallel with the responsibility towards the environment.

Satış & Pazarlama

"Koşulsuz Müşteri Memnuniyeti"ni ilke edinmiş olan M4KEY, ürünlerin doğru tasarımı, geliştirilmesi amacıyla verdiği danışmanlık hizmetleri ve ürünlerin doğru kullanımı için verdiği eğitimleri ile her zaman müşterilerinin çözüm ortağıdır.

Müşterilerin özel gereksinimlerine dayanarak oluşturulan müşteriye özel ürünleri sunması; daha iyi ve etkinlik sağlayan esnek tasarımları geliştirmesi ve sürekli innovatif çalışmalar ortaya koyması M4KEY'ı öne çıkaran en önemli farklardır.

İhracat Yapılan Ülkeler

Hem OEM hem de kendi markalarımız ile ihracat yapmaktayız.

M4KEY olarak başta Avrupa ve Orta Doğu olmak üzere 68 ülkeye ihracatımız bulunmaktadır.

M4KEY For Hyundai – Kia Steering Column Lock Emulator Overview:

- ELV is a self-occurring mechanical failure in the steering column lock.
- The occurrence of this failure is not caused by any fault.
- In case of malfunction, even if there is no problem in the vehicle key, ordinarily functioning key will not start the vehicle because the ELV steering column lock will not be activated.
- In this case, a new ELV steering column lock must be installed in the vehicle and programmed into the vehicle.
- Steering lock problem is one among the foremost frequent problems in Hyundai – Kia starting system.
- Hyundai – Kia dealer needs to order a new steering lock and program it which is just too costly and time-consuming.
- Instead, use our Electronic Steering Lock Hyundai – Kia Emulator which will fix your steering lock malfunction error for good.
- The Hyundai -Kia ESL ELV Universal Steering Lock Emulator will always bypass Hyundai – Kia ELV.
- No coding required, simply connect it. It'll fix your Hyundai – Kia ESL fail.
- Plug and Play No Adaptation Needed!
- You can easily repair ELV steering column lock, which is one of the most common problems in Hyundai – Kia vehicles.

PSA Peugeot Citroen Opel 2011 and Up Steering Lock Emulator Simulator

Link https://goldcarkeys.com/product/psa-peugeot-citroen-opel-2011-and-up-steering-lock-emulator-simulator/

3008 GT

PLUG START

PSA Peugeot Citroen Opel 2011 and Up. Steering Lock Emulator Overview:
Device Emulates PSA ESCL Unit, compatible with PSA Cars With Electronic Steering Column Lock (ESCL), FT-CAN, 2011 And Up

PSA Peugeot Citroen Opel Emulator is Plug & Play , No Programming Required.

ELV Is A Self-occurring Mechanical Failure In The Steering Column Lock.
The Occurrence Of The Fault Does Not Depend On Any Fault.
In Case Of Malfunction, Even If There Is No Problem In The Vehicle Key, The Working Key Will Not Start The Vehicle Because The ELV Steering Column Lock Will Not Be Activated.

In This Case, A New ELV Steering Column Lock Must Be Installed In The Vehicle And Programmed Into The Vehicle. Steering lock problem is one of the most frequent Problems in many cars including the Peugeot Citroen Starting System. and when the steering lock is faulty, the car will start even if the customer has a 100% working key for it until you order a new steering lock for it from Peugeot Citroen agencies. BUT instead of spending hundreds of dollar for order a new OEM steering lock, we offer you this economic solution; the PSA Peugeot Citroen Emulator which needs NO PROGRAMMING, just plug and start!

This emulator replaces the faulty Peugeot Citroen ESCL Units, it is compatible with PSA Cars With Electronic Steering Column Lock (ESCL), FT-CAN, 2011 And Up

PSA Peugeot Citroen Opel Steering Lock Emulator Installtion on Car :
Turn off the ignition.
Plug the ESL connector into the our emulator.
The SCL works only when it receives open and close signal.
Push the start button and the green led lights. If the red led blinks, there is an error that has to be erased by any diagnostic tool.

- BYPASS -

Product Overview:

- To use FIAT Bypass – Emergency Start Tool you just need to connect it to the OBD2 socket in the car.
- The tool bypasses the original immobiliser signal and allows you to start the car right after plugging it in.

Usage Requirements:

- Car has to be equipped with mechanical key.
- Car has to be equipped with original parts.
- The device will work only in case of a lost key.
- If the car is equipped with an SGW Module (some models starting
- from 2017 year), you need to use 2018+ FCA Bypass Adapter in order
- to bypass Security Gateway Module

BMW ELV ESL Steering Lock Emulator

Series 5 Series ELV/ESL Steering Lock Emulator/Simulator
How to Solve and Obtain Solutions for Problems Occurring In Vehicles and Use The Emulator ?
Remove the connector with PIN from the ELV.
Plug the connector into the emulator.
Start your car.
Mini Cooper ELV / ESL Steering Lock Emulator Features:
M4-1303 appropriate with models compatibility with BMW E90, E91, E92, E93, E60, E61, E63
And E64 And Also
Mini R55, R56 emulates ELV (Steering Lock Module).
After completing the emulator connections easy plug and play, no coding needed.
It becomes active without the necessity for extra hardware or installation.
It can perform many operations like locking and unlocking by accessing the Cas ELV module.
BMW Mini Cooper Steering Lock Emulator General Instructions:
Confirm steering wheel is unlocked and the vehicle is running
Remove 4-wire connector from the steering wheel column
Find "cable 1" from the harness connector or steering column connector.
In some cases you must clear automobile access system codes errors/memory and counters with d iagnostic tool that must be installed by knowledgeable ase mechanic and troubled codes must be reset with a special tool.
In most cases, this emulator will fix your problem as long as you've got your ELV diagnosed faulty, it's designed
to emulate a working steering lock.

— Emergency Start 2020 Fiat –Alfa Romeo – Lancia – Abarth

GK-7001

- The fastest procedure - car is ready to start right after plugging
- in Intelligent recognition of the ECU and car
- Original CarLabImmo tool - you can trust it won't let you down

- To use Fiat Bypass you just need to connect it to the OBD2 socket in the car.
- The tool bypasses the original immobiliser signal and allows you to start the car right after plugging it in.

- En hızlı prosedür - araba, fişe taktıktan hemen sonra çalışmaya hazırdır
- ECU ve arabanın akıllı tanınmasında
- Orijinal CarLabImmo aracı - sizi yarı yolda bırakmayacağına güvenebilirsiniz
- Fiat Bypass'ı kullanmak için arabadaki OBD2 soketine bağlamanız yeterlidir.
- Araç, orijinal immobilizer sinyalini atlar ve Fişi prize taktıktan hemen sonra aracı çalıştırmanızı sağlar.

2018+ FCA Security Gateway Module Bypass

Security Gateway Module (SGW) Adapter for FIAT Bypass
This 12+8pin SGW Adapter allows to bypass the Security Gateway Module (SGW) commonly found in Fiat Group vehicles since 2017.

1) Use together with Fiat Bypass
When used together with Fiat Bypass, it enables the emergency start in models equipped with the SGW module.

For full list of cars supported by Fiat Bypass

2018+ Alfa Romeo Giulia	2018-2021 Jeep Compass
2018+ Alfa Romeo Stelvio	2018-2021 Jeep Grand Cherokee
2018-2021 Chrysler 300	2019+ Jeep Grand Commander
2018-2021 Chrysler Pacifica	2018+ Jeep Renegade
2018-2021 Dodge Charger	2018-2021 Jeep Wrangler JL
2018-2021 Dodge Challenger	2020-2021 Jeep Gladiator
2018-2021 Dodge Durango	2018-2021 Ram 1500 & Heavy Duty 2500/3500
2018-2021 Dodge Journey	2018+ Ram Promaster City
2018+ Fiat 500L	2020+ Ram Promaster (Full-Size)
2018+ Fiat 500X	2018-2021 Jeep Cherokee

GK-3000

2) Also compatible with FCA Group diagnostics interfaces
The SGW Adapter can also be used along with dedicated Fiat Group interfaces to perform diagnostics.

BDC FEM Eeprom Adapter For Autohex II

GK-3001

Wakeup Ignition Bypass OBD Socket

Using this tool it is possible to force the ignition on (Terminal 15) in VAG vehicles from the OBD diagnostic port. This will allow you to wake up the control units in the vehicle and establish OBD communication without having a key. It is fitted with an OBD male port on one end and a female port on the other end which enables you to use the diagnostic port in conjunction with this product.
The K-Line, L-Line and CAN connections pass through the device and are available for communication.
A switch is fitted to toggle the ignition ON/OFF and LED's to confirm the presence of power and ignition status.
